

****SUNY Delhi Refrigeration & Air Conditioning Program Celebrates Achievements and Industry Partnerships****

SUNY Delhi, May 8th, 2024 – The Delhi Refrigeration & Air Conditioning Program proudly announces the graduation of 34 students from its esteemed Refrigeration and Air Conditioning Program. The ceremony, held at SUNY Delhi College on May 8th, 2024, marked the culmination of months of hard work, dedication, and skill development for the graduates.

One of the defining features of this year's graduation was the invaluable partnership between SUNY Delhi Refrigeration and Air Conditioning Program and Meier Supply Co., Inc. Meier Supply, a leading provider of HVACR products and services, has been a steadfast supporter of the school's mission to educate and empower the next generation of HVAC technicians.

Meier Supply has not only supplied Klein Tool kits to the students, essential for their coursework, but has also extended generous discounts on Klein Tools for two years post-graduation. Additionally, their ongoing donations of equipment have enriched the learning experience for students year after year.

During the ceremony, the prestigious Meier Supply Award was presented to two outstanding students, who exemplified excellence in their studies and dedication to their craft. These students were honored with tools and swag generously donated by Meier Supply.

Mike Meier, CEO of Meier Supply, and Art Studer, Regional Operations Manager of Postler & Jaeckle, were present at the ceremony a few weeks prior to personally engage with the students and share insights from their extensive industry experience. Their presence underscored Meier Supply's commitment to supporting vocational education and fostering the growth of aspiring Refrigeration and HVAC professionals.

"The partnership between SUNY Delhi Refrigeration and Air Conditioning Program and Meier Supply signifies our shared commitment to advancing the HVAC industry through education and mentorship," said Mike Meier, CEO of Meier Supply. "We are thrilled to play a role in equipping these graduates with the tools and knowledge they need to succeed in their careers."

With an average of 40 graduates annually, the Delhi HVAC School continues to produce skilled professionals who are ready to meet the demands of the ever-evolving HVAC industry. The school's dedication to excellence, coupled with the support of industry partners like Meier Supply, ensures that graduates are well-prepared to excel in their field.

As Meier Supply looks to deepen its involvement with trade schools, the SUNY Delhi Refrigeration and Air Conditioning Program stands as a shining example of the positive impact that collaboration between industry leaders and educational institutions can have on shaping the future of the HVAC workforce.
