

Cube Ice Makers

Modular Cubers

Pearl Ice

Better drinks. Bigger savings. More reliable icemaking.

Making ice shouldn't be complicated, so we'll make it easy for you to see why installing a new Pearl Ice machine is a no-brainer for your business. Pearl Ice enhances beverage programs and lowers your operating costs. With benefits like these and ICE-O-Matic's reputation for reliability, it couldn't be any simpler.

- Pearl Ice soft chewable ice crystals are widely preferred by customers.
- Greater liquid displacement than cube ice.
- Cools beverages quickly.
- Decreased water and power usage compared to cubers.

Product Features:

- **Maximum Ice**
  - Integrated storage and high production, means the most ice in a minimum amount of space.
- **Dependable Ice**
  - ICE-O-Matic Flake ICE Makers remove excess water by pushing the flaked ice through an extrusion process. The result is high quality flaked ice which is ideal for medical, supermarket, or restaurant applications.

ICE-O-MATIC

# ICE-O-MATIC

## Cube Ice Makers

### With Built-In Storage

ICE-O-Matic Self-Contained Cube ICE Makers provide multiple size / capacity options with applications ranging from the Small Office / Home Office to a Commercial Restaurant Kitchen.

Insulated Self-Contained storage bins provide maximum ICE preservation. Height adjustable legs and large bin door opening provide easy ICE access in tight-fitting situations or under-counter environments.

Innovation, reliability and customer support has helped us win the trust of customers large and small. Purchase ICE-O-Matic with confidence and take the worry out of your ICE Making needs.

Ice Dispensers

Hotel Dispensers

ICE-O-Matic Hotel Dispensers are built with the customer in mind, and feature durable stainless-steel cabinets with built-in storage.

Our 30-inch Hotel dispenser is available with three options: push-to-dispense, water-filler or coin / token.

Designed for rugged, high usage environments, our 22 and 30-inch wide dispensers have fingerprint-proof dispensing areas and oversized sinks to accommodate almost any size ICE bucket.

In addition, both models dispense a 1/4 lb. of ICE per second, allow access for easy cleaning and provide maximum ICE storage in a minimum amount of space.

Note 1: ICE Makers sold separately

Note 2: Hotel dispenser only dispense full and half cubes and do not make ICE

### Cube Ice Only or Water & Ice

ICE-O-Matic's ICE Only and Water and ICE Dispensers are durable and easy to operate. Auto Rotate agitates the ICE for 4 seconds every hour to provide more reliable ICE dispensing and less ICE congealing. Direct Dispense ensures that ICE hits the glass every time and Quick Stop prevents overflow and waste.

The Electronic Dispenser has a sleek, high-tech design with durable fingerprint-proof front and top panels. Touch-free infra-red actuation provides convenient one-hand operation.

Additionally, a bigger sink allows more clearance for larger containers. Quiet to operate, the Dispensers are ideal for hospitals, cafeterias, restaurants and offices.

Note 1: ICE Makers and Adapters sold separately

Note 2: IODs only dispense full and half cubes and do not make ICE

#### IOD 150

ICE-O-MATIC

## Storage Bins

ICE-O-Matic's ICE Storage Bins offer multiple sizes and storage capacities to fit the most demanding application needs. Polyethylene bin liners and industrial foam insulation prevent the ICE from melting too quickly, which means more ICE for your customers.

All bins feature height-adjustable legs. The large door opening and low bin profile provide easy ICE access.
