Qwik608 - EPA Section 608 Study Courses and Testing

EPA approved test for Type I, II, III, and Universal

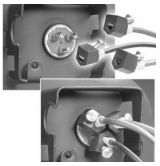
Mainstream Engineering Corporation is an EPA approved testing organization for the EPA Section 608 Certification Exam. To ensure a better chance of passing this exam, Mainstream Engineering developed a take-home self-study course.

The individually boxed course includes a 142 page fully illustrated study manual, a concise study guide, a two-hour practice video, and a one hour practice audio tape. Over four hundred (400) practice questions are provided with the study course so that technicians pass the first time. A free EPA certification card is mailed directly to the student if the student becomes certified in one or more sections of the exam.

- Test results are available online at www.epatest.com
- Exams are processed within 2 business days upon receipt
- Course includes R-410A training

Mfg Part No	Description
QT3000	EPA Video, Audio Cassette, Study Guide, Reference Manual including Test
QT3200	EPA CD-ROM Self Study Course including Test
QT3300	EPA CD-ROM, Reference Manual, Study Guide including Test
QT3100	EPA Video, Audio Cassette, Study Guide, Reference Manual (without Test)
QT3004	EPA Video, Audio Cassette, Study Guide, Reference Manual including Test - Spanish
QT3110	EPA Video, Audio Cassette, Study Guide, Reference Manual (without Test) - Spanish
QT3001	608 EPA Paper Test Only
QT3002	608 EPA Paper Test Only - Spanish
QT3009	EPA Video, Audio Cassette, Study Guide, Reference Manual including QwikTest
QT3209	EPA CD-ROM Self-Study Course including QwikTest
QT3309	EPA CD-ROM, Reference Manual, Study Guide including QwikTest
QT3008	608 EPA QwikTest Only

QwikLug Compressor Terminal Repair Kit



Tightens quickly from the front with a Phillips head screwdriver. Has a durable brass interior shielded by nylon exterior to prevent shorting.

Mainstream has developed a patent-pending product, QwikLug, which easily attaches to damaged or corroded spade connectors. We have considered the difficulty in these field installations - the lack of space around these spade terminals - and have developed a solution. Simply push the QwikLug connector on and tighten it from the front with a Phillips screwdriver. QwikLug comes with color coded leads for connecting to existing wiring. The outer connector housing is a nylon insulator so the connectors can touch without shorting. It's that easy!

Mfg Part No	Length/Gauge
QT2810	2' 10 AWG
QT2910	4' 10 AWG
QT2912	2' 12 AWG
QT2812	4' 12 AWG
