

HANDS-ON AC/REFRIGERATION SIMULATOR TECHNOLOGY DAY

Do you love to get your hands dirty and make things work? Then this class is for you! This full day training course lets you work with a live simulator using a series of mechanical and electrical exercises that often plague refrigeration and air conditioning systems. You will analyze and determine the best course of corrective action and learn best practices to achieve continued efficient system performance. Working one-on-one with an Emerson Certified Instructor ensures that your understanding and training is complete.

Here's a sampling of some of the exercises:

- ▶ Pump Down
- ▶ System Evacuation
- ▶ Valve Plate Change
- ▶ Faulty Capacitor
- ▶ Low Charge
- ▶ Faculty Evaporator Fan
- ▶ Clogged or Restricted Drier
- ▶ Refrigerant Leak
- ▶ Dirty or Restricted Condenser
- ▶ Loose Electrical Connections
- ▶ TXV Superheat
- ▶ CPR Adjustment
- ▶ *Plus much more!*

Date:

Thursday, March 22, 2018

Class Time: 8:00 am – 5:00 pm

A light breakfast, lunch, and refreshments will be provided

Cost: \$325.00 per person

(Fee must be paid prior to start of class)
